JULIUS JOJO C. SABULAO, JR.

STUDENT

Profile

Computer Science student at FEU Alabang specializing in software engineering and mobile application development. Project Manager for the Silver Swan IoT Home Smart Urinalysis System, with experience coordinating a four-member team and building Android and web projects. Seeking an internship where I can apply my programming, communication, and teamwork skills.

Education

Sep 2023 – Present
TERTIARY
Bachelor of Science in Computer Science
FEU Alabang

Aug 2021 – Aug 2023
SECONDARY
STEM
APEC Schools

Selected Projects

Undergraduate Thesis · Exhibited at CS Expo 2026
Silver Swan: IoT Home Smart Urinalysis System
Project Manager · Four-member team · silver-swan-website.vercel.app

- Managed team tasks, deadlines, communication, and project deliverables.
- Coordinated documentation, testing, presentations, and progress updates.
- Helped guide the development of an IoT-based urinalysis system involving mobile applications, sensors, and data processing.

YapYap Chat Application
Android Application · Kotlin · Firebase

- Built an Android chat application with user registration and login.
- Implemented user profiles and one-to-one messaging.
- Used Firebase Authentication and Firebase Realtime Database.

LIBro
PHP Web Application · PHP, HTML, CSS, SQL · github.com/clstljr/LIBro

- Developed a PHP-based web application with multiple pages and reusable components.
- Practiced web development, page navigation, and database-related functionality.
